

**CLARK COUNTY COMPREHENSIVE PLAN UPDATE**

**THURSDAY, MAY 29, 2025**

**OPEN HOUSE – PUBLIC TESTIMONY**

Ruth Bader Ginsberg Elementary School

8408 N.E. 25<sup>th</sup> Avenue

Vancouver, Washington

7:00 p.m.

**TESTIMONY**

HEDGEPATH: Janet Hedgepath, H-e-d-g-e-p-a-t-h. 505 N.W. 45th Street, Vancouver, 98660. I'll start with I support Alternative 1, no addition to the urban growth boundary.

I feel that we need to consider a future that's going to look very different than our past. We're going to be living in climate that is much hotter, much dryer. Housing should be, have air-conditioning, it should have built into the system some kind of water conservation recycling.

And I think it's important that we not give away land such as our ag lands to something else today that in ten years from now when we have our next study, we won't be able to recover, it will be lost forever.

I think it's important that we think about our food sustainability and that building new single-family homes is not going to be the answer. Thank you.
