Hello everyone, apologies if I've sent this before.

Here is a link to the recording of the webinar on the demand-supply modeling and economic analysis of the Draft Comprehensive Climate Action Plan for the State of Washington, 2025-2050.

Here's a link to their draft CCAP. It's 250 pages long.

I found their draft plan to be inadequate so I submitted more than 20 comments before the comment period closed on August 22.
Their Final CCAP is due on Dec 31, 2025
