Hello Clark County Officials,

We are compelled to reach out to you after seeing the recent findings for the Clark County Agricultural Lands Study.

We are very pleased to see that the study reached two positive conclusions supporting the (1) 96% use is advised to remain as such, and (2) that there are additional Clark County high-quality ag soils identified in rural areas not yet idesignated, but should be (an additional 2%). Excellent! We encourage each of you to be in full support of these findings, if you are not already.

Thank you.

Don and Debbie Graham
