Councilor. I attended the hearing Thursday and was irritated by staff control. when I was both a

commissioner and also under the charter staff sated that the item met state law in their opinion. they did not approve or disapprove. That is only the elected men and women's job. I realize people want to keep farmland. that is why I have worked hard to keep your parks department from wrecking the purpose of heritage farm. Once again you are the only ones elected. that's why you ran for office.
