Comment

Please do not increase density in the 179th Street corridor until the roads are built. The County's own 20-year transportation plan has a funding gap of at least \$585 million, and the roads promised in 2019 still aren't finished. Approving more housing than the roads can handle — and letting staff set aside the concurrency code to do it — will lock in gridlock for decades. If the County can't fund the roads, it should reduce the planned density, as state law requires. Build the infrastructure first. It's disgusting that developers line their pockets and we get left with the mess.
