Good day, Stewart,

Thank you for submitting comments ahead of the Aug. 20th Public Hearing for the 2025 Comprehensive Plan Update.

Your comments will be added to the Index of Record. However, the I-5 bridge work is not a county project and is being coordinated by the Interstate Bridge Replacement Program. I have included their website information below if you are interested in submitting comments or inquiring for information on these topics.

Subject: groth Management mailing

EXTERNAL: This email originated from outside of Clark County. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I was unable to get either of the *bit.ly* links to work; I had hoped to leave a question for the upcoming Growth Management Planning Meeting on Aug 20.

Questions: What is being done to plan around the upcoming tolls on the I-5 bridge? This will have a huge impact on traffic and livability in Clark County.

On a similar note, how will the bridge construction affect planning? Are there any plans aimed at widening I-5 or changing the right of way for interchanges?

Regards,

Stewart Low
