Subject
Three amendments to the comprehensive

Date of Hearing
Thu, 10/01/2026

Comment
Hello County Council,

My name is Eve Hanlin. I am a local business owner and I've been resident of Clark County since I was 11 years old.

As a community member and neighbor, I ask for these three amendments to the comprehensive plan:

1. Please align greenhouse gas (GHG) emissions reduction targets with the City of Vancouver's reduction targets.

Taking the swiftest action is critical for the health and well-being of our children and future generations. We are truly running out of time to make these changes, and we are all well aware of the consequences of moving too slowly..

2. No expansion of Urban Growth Boundary (UGB) or de-designation of agricultural resource lands.

I am a rational person who understands the need for economic growth, but we must have balance and a strategic approach. Once these lands are gone, they're gone forever. As someone who lives in a structure, I know how important development is. But we cannot take away more of these local resources from future generations, just to profit today.

3. Please draft a supplemental Environmental Impact Study (EIS) with appropriate up-zoning to accommodate housing and employment targets.

I am greatly concerned about these areas and the impact they will have on current residents and future generations.

I would be proud to see my county stepping up and taking the necessary, and strategic actions to give future generations a chance to live in a healthy and abundant community.

Thank you for your time and work for this community,

Eve Hanlin
