Comment
I am very concerned about the possibility of expanding urban growth areas into agricultural land. With the need to keep our world safe from emissions and heat, we need to keep our lands from being paved. The land that Ridgefield and La Center are requesting to pave over forever are prime agricultural lands and farmlands of statewide importance and meet the other criteria for agricultural lands of long-term commercial significance.
We need to protect our farms, allowing us to buy locally, not ship in the majority of what we eat.
